INDEXES

**ATLA Religion Database with ATLAS**
Format: Internet
Coverage: 1949 - Present
Description: Religion Database is an EBSCO database and considered the most comprehensive English language index to religious periodical literature. It covers all areas of religious studies and is not restricted to any particular viewpoint. This database also includes ATLAS, which is a full-text database of over 80 of the leading theology & religion journals. It contains citations to articles, books, essays and book reviews.

**Christian Periodical Index**
Format: Internet
Coverage: 1966 - Present
Description: CPI is an EBSCO product and indexes around 130 Evangelical Christian periodicals. Titles are chosen for their value to students training for Christian ministry. It is primarily provides just citations and has a limited number of full-text titles.
