Question: 6b. If yes, please describe how being on an athletic team did or did not benefit you.

Respondent	Response
1	Being a part of an athletic team at Johnson benefited me in many ways. The most important of which is the lifelong friends that I made.
2	Helped the development of team mentality and hard work ethic
6	I played basketball all 4 years. I learned more about leadership being on those teams than I ever learned in a classroom. Basketball also put me in relationships with guys that helped grow my faith. Had i not played basketball I would have spent much more time sitting in my room.... Basketball was more beneficial to my spiritual growth than any class I ever took at Johnson.
7	Provided community and a chance to represent the college.
10	I loved the relationships I built on the basketball team.
12	Some of my best friends were made from other guys on the soccer team. My wife was on the woman's soccer team.
21	It gave me an opportunity to play a sport I enjoy and make friends while also having a chance to represent the college. I got to go to places I had never been for tournaments.
22	I played on the soccer team. With being a transfer student from California and not knowing anyone when I first came to Johnson, I made some amazing friendships and by my senior year had the awesome privilege of being a captain. Being on the soccer team was so much fun!
33	Encourage each other to reach the goals and learn how to glorify the Lord throughout practice and competitions/games.
38	Helped me make friends
46	The coach served as a mentor, and my teammates became some of my closest friends. The discipline and discipleship among our team was also helpful. Many of my favorite college memories are because of the athletic programs I participated in at Johnson.
48	I played Woman's Soccer and even though we (mostly me) stunk as a team, it was great to get to know the other girls and be part of a community different from my close group of friends I usually hung out with.

Question: 23. Are you satisfied with what you gained from your major at Johnson University?

Respondent	Response
1	I am successfully employed as a teacher, and feel prepared in every subject area.
2	Prepared me for my calling
3	Everything I've learned from Johnson has been applicable to my life in and out of ministry.
4	I'm doing what I studied
6	I'm not sure that any classroom can prepare you for ministry, but to the extent it could I believe Johnson did that.
7	Gave me a well-rounded biblical education
9	I cannot say enough positive things about the education department and the amount of quality education I received!
10	The knowledge I gained at Johnson will always be useful. I also made life long relationships that I would never trade.
11	Johnson's education prepped and prepared me for life and my current job
15	I got the life skills that I was desperately lacking. I don't remember a lot of what I learned, but the experience taught me things I needed to learn.
16	Great counseling program!!
17	I am working with international students, I majored in intercultural studies- it helped.
18	It got me where I wanted to be.
19	The professors were personal. The education was hands-on and practical.
21	The education I received majoring in Bible is very good. Johnson is a respected name in most independent Christian church circles.

Question: 23. Are you satisfied with what you gained from your major at Johnson University?

Respondent	Response
22	Yes, I feel like I gained adequate knowledge of how a non-profit runs and it has helped me in role as being a part of the Communications Department of my church.
23	Feel competent in my field of practice (counseling)
24	Johnson prepared me extremely well for graduate school and a career in counseling. I gained employment right after graduating and I was far more prepared to serve my community than students from other major universities in Ohio.
25	I think JU has an excellent teaching program and I felt it equipt me for my teaching career.
26	It prepared me well for the workplace.
27	Husband works at a church with youth and families. It has helped me work with these students and their families.
31	Solid biblical studies courses
32	It prepared me well for ministry.
33	Be able to pursue what I had a passion for and help me how to start/continue the ministry at my church
34	Small class sizes offered one-on-one attention and hands-on experience.
35	Enjoyed my time at Johnson and I know my degree will be helpful in future careers
39	Even though I entered a different field after graduation, the principles that I learned at Johnson translated well.
40	If gave me a good perspective
43	My professors were amazing and shared everything God has done through them and in the field.
44	I was well prepared for the next phase of life
45	The hermeneutical skills that I gained while at Johnson have been invaluable in finding Biblical truths and how to convey those truths to the students that I serve. The Church leadership/conflict resolution skills have helped me navigate some conflicts that have risen during my time as a youth minister.
47	I studied counseling and bible at Johnson, even though I am now a full time youth minister, I use my education daily, both Bible and counseling.
48	Yes! The MA in Holistic Education was intense but it very much prepared me to be an elementary teacher. I was also glad to have the Bible degree along side as I work overseas and in a Christian school

Question: 23. Are you satisfied with what you gained from your major at Johnson University?

Respondent	Response
5	Degree did not qualify me for jobs in my field.
13	I appreciated the TESOL courses JU offered at the time, but I think a couple more with this concentration would have been helpful.
29	I don't feel as if I was fully prepared for ministry. The congregational ministry degrees were going through a great deal of change during my time as a student. I didnt preach enough because I want required to.
30	Perhaps due to my own ignorance coming into the school, much of what was taught in preaching and church leadership revolved around sustaining cultural religious norms rather than developing the heart, thought, and life patterns of a church leader.

Question: 24. Do you feel that your professional area/major provided adequate skills?

Respondent	Response
1	I felt and still feel very prepared for my profession.
3	Absolutely. I feel able to preach and pastor the people more than adequately!
7	Taught me how to learn on my own and how to find answers.
9	I would never have survived my first year of teaching if it weren't for all the field experiences and classroom experience I received.
15	Just barely, though. I switched to my major when I realized I would end up in an administrative/business setting anyway and my credits wouldn't transfer. I learned just enough to make it through my first position at work and, from there, I gained the experience I needed to move up in the company.
18	Sure.
21	I received the basics and skills I needed to be a youth minister.
22	Again, having the knowledge and background of how Non-Profits work, has been beneficial in my job. Also, I "majored" (I think it was just a minor then though) in Media Communications and the background in that field has been helpful in my role of being a part of the Communications Department. I also took Homeletics at Johnson and have had the opportunity to do announcements, speak in our Membership Class, etc. and having that background has been helpful.
23	Professors taught needed skills for field work
24	I was able to apply everything that I learned at Johnson to my profession.
26	It prepared me for the workplace.
30	Students leaving Johnson at the time of my education can sustain current church structures well.
31	Plentiful preaching experience
33	Be capable of building a program from zero
35	I use the skills I learned in everyday life
36	In some areas yes, in others I feel that Johnson is behind what is happening in churches by at least 5 years.
43	I am really good at what I do.
44	I have taken several lessons with me from JU for my field
45	It gave me a good starting place in youth ministry. But with youth ministry constantly changing the skills that I learned have to be changed or I have to adopt new skills.
47	The bible that I learned is extremely helpful in my ministry. The Counseling classes I had were a good foundation that helped me to complete a Master's degree in counseling, which I use frequently
48	Yes, very practical skills from classroom management to planning lessons.

Question: 24. Do you feel that your professional area/major provided adequate skills?

Respondent	Response
2	Preaching and Church Leadership did not prepare me to work in youth ministry
10	There were issues with the financial class I took at Johnson. I feel that the school should have introduced us ho to use excel with our class. There needs to be more technology implemented into the courses.
13	It would have been helpful to have more training in teaching and lesson-planning in the TESOL courses.

Question: 24. Do you feel that your professional area/major provided adequate skills?

Respondent	Response
34	Although I thoroughly enjoyed my experience in the TV/Video program, I would have felt more prepared to enter the field if my classes had been more challenging. Even though formal education provided a good foundation, I've found that job experience has been the best way to learn the skills needed for this field.
40	Better ties to nonprofit organizations would help to help with job searching

Question: 25. If you were to choose today, what professional area or major would you choose? Why?

Respondent	Response
1	In addition to my B.S. in Elementary Education, I would choose to continue my education in the field of History.
2	Preaching and Church Leadership
3	Same as now. Preaching. I feel called to this and I've never been happier than where I am now.
4	Same. Youth Ministry/preaching
5	Teacher Ed for ESL - this would qualify me for a job in the States without need for further education.
6	Same. Youth Ministry/Preaching.
7	I think I would possibly choose a major that had more practicality toward ministry
9	I would still choose Early Childhood Education because I adore children as well as teaching them. This is my dream career.
10	Preaching, I would of loved the experience and knowledge to better prepare myself for future missionary work.
11	Youth Ministry and Strategic Ministry to prepare me for youth, but also other areas of ministry.
12	same
14	Masters as Drug counseling
15	If any, maybe something more PR. I think a lot of it has to do with how difficult the market is. And that I knew halfway through that I wouldn't end up in a field that Johnson trains for, but my credits wouldn't transfer. I appreciate the experience and I loved the faculty, staff, and students.
16	Same
17	Same
18	I would keep the same major; perhaps add ESL.
20	Education-so I could become a teacher
21	Major in Bible and minor in youth ministry/preaching.
22	Today, I would choose to do Nursing. Which is what I am currently working towards. I actually decided to do this because Johnson opened my eyes to the Non-Profit world in doing Student Ministry Hours at a crisis pregnancy center and through that I have a huge heart for helping women which has led me to want to become a nurse.
23	Photography or Business
24	I would choose the exact same thing. I loved learning about counseling at Johnson and I continued to prepare through graduate work at the University of Dayton. I was far better academically prepared for graduate school than the majority of my peers.
25	The same. Teachinf ESL
26	The same major. Counseling.
27	Counseling, my previous major. I enjoyed it so much, I love helping people.

Question: 25. If you were to choose today, what professional area or major would you choose? Why?

Respondent	Response
29	Preaching and Church Leadership
31	Same one. It has carried over well to ministry.
32	Ministry
33	Teacher Education: I'm simply interested in teaching children at school.
34	I would choose the same or a similar major.
35	Social Work, that is more of a career I want but cannot get into because I do not have a degree in social work.
36	Same
37	Computer science, data
38	Same
39	Business management.
40	Not sure
43	Same one! It's my passion, can't picture myself in any other fields.
44	Preaching and Church Leadership--I still have a heart for ministry in the local church
45	Church History. I honestly believe that people (adults and teens both) are looking for Biblical truth. But they also want to know how the truths came about and who lived for those truths. A degree in Church History, along with other basic biblical classes, will help me be able to convey those truths to the seekers while showing them why those truths exist.
46	Teaching. I currently homeschool our children, and I have discovered I love elementary education.
47	I would still choose my counseling major. I believe that every minister needs to take more counseling classes, I use this education with every child or teenager that I interact with. If I could I would take more Bible, Preaching, Children's Ministry, and business classes to go along with my Counseling, But I would still get a counseling degree.
48	Same!

2	cuz i met a smokin hot ladie their (Also provided a quality education for an affordable price)
3	I can't express the love I feel for the professors, the campus, the classes, the people, and Tennessee. I loved everything about my time there and while I'm happily married and at a job I love, I always have a place in my heart for Johnson University.
4	Great school. great experiences.
5	I would have attended and selected a different major.
6	Loved my time at Johnson and believe it prepared me for ministry to the best of its ability.
7	Very much valued time there and education received there
10	I grew so much while attending in my faith and as an adult. It also helped shelter me when I was a young Christian.
11	I loved my time and education at Johnson University
12	I love Johnson

Question: 26. If you had it to do over again, would you attend Johnson University?

Respondent	Response
13	The foundation and primary focus of JU is the Bible and being in relationship with God. The professors are gifted and loving. The campus is gorgeous and located in a wonderful city.
15	I really don't know. I really appreciated my experience, especially the faculty and staff. But the school does feel weird now with all of the changes that are happening. And I sometimes don't agree with the mindset that "the Johnson code" sets. I'm in a field only slightly related to my major making less money than some of my friends that didn't go to college. But I met my husband there and I found my job of the past two and a half years through the Johnson announcements, so it can't be too bad, right?
18	The friends....
19	The community is phenomenal.
21	The people and professors at Johnson make the college what it is. I value my time I spent at Johnson.
22	1000%. Being at Johnson was the one of the best experiences of my life. From the people I met, to the classes I took, to the experience of living away from home and in Tennessee. I wouldn't change that for anything.
24	I loved Johnson University and the community environment is unbeatable. I loved the support from professors and the staff at Johnson and I would absolutely choose it all over again!
25	Yes! I loved my time at JU. I found a wonderful community and received a great education.
26	It was the best four years of my life, it brought me into a deeper understanding of the Bible and God's love, it prepared me for my career, I met my husband and best friends there... I could go on.
27	Wonderful college, everyone cares so much, professors and staff and Johnson want you to succeed.
28	Would love to attend for my phd
33	I believe that JU provides high quality of education in this field
35	It was a great 3 and a half years.
40	Family ties
43	Johnson is great! I wasn't even supposed to attend, already had everything in line in Cincinnati then God was like "um, wrong school." It was the perfect place for me!
44	I had a great experience at JU
45	I loved the experience, the friends that I gained, and the education that has set me up for a successful ministry.
46	It was a great experience! It was a safe environment that cultivated a wonderful learning atmosphere and nourished authentic relationships.
47	I loved the small community environment at Johnson. I loved the faith based background, and I believe that the things that I was taught there are very helpful to who I am, and what I do today.
48	Great Teacher Education program, great teachers, great environment, dorms were awesome! made the best memories!

Question: 26. If you had it to do over again, would you attend Johnson University?

Respondent	Response
23	I had to conceal my identity as a lesbian to avoid being kicked out
29	The school was going through to much of an "identity crisis" from 2010-2014. If I had to choose today, I would attend JU. Knowing what I know now about JU from the time I spent there, I would not choose to attend JU from 2010-2014.

Question: 26. If you had it to do over again, would you attend Johnson University?

Respondent	Response
30	I do not see the full necessity of what I experienced at Johnson, at least in relation to the development of spiritual church leaders. If I did return it would be for a different degree. I would focus on a more professional degree and make room to take some of the ministry classes.
37	Outside of my major the classes were too easy not enough variety. Lack of co curricular on campus. Lack of career center.

Respondent	Response
1	I work with the youth at church, and I am involved in other goings-on as well.

35	Don't do volunteer service
43	Technically no. But kids are involved!

Question: 39. Please include any comments about these 8 questions:

Respondent	Response
3	I'm probably biased. Again, I love my school.
10	I hope and pray that Johnson, while growing, does not stray off from main doctrinal truths found in the Bible. That they do not begin to slide off to liberal doctrinal views and maintain conservative view of the Bible. I hope that I can also stay associated with Johnson University campus in some manner as a proud Alumni.
15	From what I've heard lately, it seems like the school is significantly better at encouraging Christian service and significantly worse at being affordable.
19	A lot of people assume that Johnson is overly-sheltered. I appreciate that in my time at Johnson, I was encouraged to think for myself and taught how to interact with people from different backgrounds and with different beliefs.

Question: 39. Please include any comments about these 8 questions:

Respondent	Response
23	The counseling program was exceptional at preparing me to work with various clients from diverse backgrounds
26	I had a very hard time affording school at the time. I had to take out the max amount of loans and my parents were not able to help very much.
33	Being a part of the JU community had me think of what it meant to live a Christ-centered life and encouraged me to serve others with love in any situations.
37	Overall lack of diversity in student and faculty body. Academics were not challenging
47	I know that Johnson prides itself on being affordable, and compared to other private or state schools it is cheaper, but cheaper doesn't mean affordable. It is my personal opinion that all college prices are too high, and when you have 22 and 23 year old students graduating with various amounts of significant debt, then it creates a large burden that takes many years to recover from. Again, I know that Johnson is cheaper than many other schools, but during my time there tuition increased every year, and I was at school when the economy collapsed in 2008, and with increased tuition cost it was not affordable.

Question: 82b. Please explain

Respondent	Response
1	Most professors have a visible passion for their subject. That makes it easy to get engaged with the material
2	Dr. Reece - he was always excited - even at 7:35 am
3	Doc, Tommy Smith, Bridges, Rodriguez, Overdorf and so many more.
4	Owens, Rodrigez, Reece, more. They showed passion about teaching and it helped me to be excited about learning
6	Dr. Owens. Dr. Cook. Dr. Gupton. Doc Reece. Dr. Overdorf
7	I had several professors who were very passionate about their subjects and effectively communicated why they mattered.
10	Doc Reece was always someone I could look up too and strive to mimic.
11	Most of my professors at Johnson taught with passion and desire which brought excitement to learning at JU.
12	I had a lot of great professors
13	Dr. Owens, Doc Reece, and Dr. Mattingly were excellent teachers, presenting material with passion and genuinely interested in helping us grow in our knowledge and understanding.
15	I had very little experience with academia or being a grown-up before I went to college. I had several professors that mentored me in education and life. I still have a deep appreciation for several of them.
17	Great teachers: Dr Mattingly, Doc Reece, Dr Bridges, Dr Tommy Smith to name a few. They are passionate about what they teach and it is contagious to the students, at least it was to me.
18	Ron Wheeler, Don Trotter, Gerald Mattingly (spelling?).... all loved the content they taught.
19	My professors were passionate about what they did, making me want to succeed.
20	Doc Reece
22	I had many professors, especially Alicia Crumpton, that made me excited about learning about the Non-Profit world. Daniel Overdorf also did an awesome job in teaching Homeletics and being supportive of women in ministry and being a part of his class.

Question: 82b. Please explain

Respondent	Response
23	I was strongly influenced by all faculty. They are the reason I stuck with the program when it got most difficult
24	I think that almost every professor I had at Johnson made me excited about learning.
25	Doc Reece and Dr. Enyert
26	Doc and Cindy Reece among others were so passionate and cared so much about what they were teaching.
27	Yes I had many professors who made things interesting and made me want to learn.
29	I had multiple profs that were friendly, knowledgeable, and made learning their classes enjoyable and memorable.
30	Jason Mead was an amazing history professor; Music Appreciation with Donald Trantham was the best non-major class I took; Carlus Gupton was wise and helpful; Don Trotter was a master of making the Old Testament purposeful; Carl Bridges made every day worth showing up for; Rafael Rodriguez was new when I first took his classes but over time I grew to appreciate his heart for Christ in the midst of language and history classes.

Question: 91. Please list two or three specific programs, procedures, courses, activities, or experiences you had at Johnson that have proven MOST helpful to you since leaving and explain why.

Respondent	Response
13	For Christian Service hours I regularly participated in FriendSpeak, which was excellent practice and preparation for the TESOL field. Dr. Owens' Biblical Hermeneutics class gave me tools for reading, understanding, and applying the Scriptures, which I have continued using. My closest friends are people I met at Johnson, so I'm grateful for the variety of events and programs SGA and staff organized for us that encouraged friendships and making connections. I also really enjoyed and appreciated the small groups chapel.
14	Preaching and sermon preparing
15	Sitting in professors' offices, discussing what life expects of us, what we encounter, and how we can best live into our calling. Working tiring hours on research projects that I was passionate about, researching and discussing topics with students, and then getting the incredible joy of a good grade. Making friends that helped grow me in the different phases of my life.
17	Cross cultural communication, and other intercultural classes - was helpful for me to understand my foreign friends and also my students
18	1. The internship/student teaching during grad school. Real life experience is much better than classroom lectures. 2. I teach history to high schoolers, so all the history classes I took were helpful.
19	The hands on experience in the teacher-ed program. Also, writing all of those dozens of lesson plans seemed annoying at the time, but I appreciate the ability to familiarize myself with available resources.
21	Homiletics courses and all my Bible courses because I the information from them every day

I found my non-profit classes like the classes Alicia taught to be helpful in how I view non-profits. I also thought have the Student Ministry hours was SUPER helpful to me because it opened my eyes to Crisis Pregnancy centers and our role in helping. I am super passionate about them now and want to change my career so that I can help women in crisis pregnancies, all thanks to Johnson.
23	Supervision provided by Sean Ridge and Kristel Headley have shaped me immeasurably and helped me become a better clinician.
24	My internship was very helpful because it confirmed that I wanted to be a school counselor. Work study was also very helpful because I worked for the registrar. The skills I learned while working there have carried over to my school counseling job very well. Work study also allowed me to connect with my supervisors and grow relationships with them.
26	I would not have qualified for my first job without my Counseling Practicum experience. The Counseling Lab class was also incredible and helped confirm my desire to be a counselor. Those two courses are incredible and very unique to Johnson.
27	My internship- helped prepare me with teens who have been pregnant or thought they may be pregnant in our youth groups. Counseling courses-helped prepare me for dealing with all kinds of people and understanding that everyone deals with something in their life, made m more empathetic, compassionate and patient.

Question: 91. Please list two or three specific programs, procedures, courses, activities, or experiences you had at Johnson that have proven MOST helpful to you since leaving and explain why.

Respondent	Response
33	Administration of Early Childhood Program Early Childhood Program Development Internships Why: These courses/programs not only provided me the fundamental ideas and practical skills to create and implement a program for children but also equipped me as a minister how to make each program or curriculum connect to a spiritual level.
34	My internship, work/study jobs, and media classes helped me gain practical job skills.
35	I was an RA and that was a great experience for me being around all my girls in Johnson Hall and learning leadership skills. I loved my counseling classes and learning in those each day. Lastly, my internship at East Tennessee Children's Hospital made my last semester so much more enjoyable.
36	Tour Choir, experiences in real churches seeing the way things are done across the south and midwest
37	My urban studies courses were top notch and have applied to my current professional life.
38	Chapel was always a favorite for me. I loved student led chapel and was sad to see it go for the small group chapel. Dave Wheeler's financial courses have been helpful. David Reece's classes were definitely the most beneficial and have stuck with me the most. Sad to see he has moved on from teaching.
43	I actually took a few teacher Ed classes that have come in handy often while working in children's ministry. I wish I could remember their actual names but Stephanie Owens and Becky Eveland taught them.
44	SGA: team building, budgeting, project management skills Internships: world exposure, field experience
45	Biblical Preaching 1 Ministry Relationships
46	Counseling Observation Counseling Practicum Dave Wheeler's Leadership Class Chapel

48	1 year of Student Teaching in Public and Private Schools - practical real life experience in a classroom from the 1st day of school to the last day. Work Study job of Teaching Assistant for several teachers - grading papers, working one-on-one with a teacher.

Question: 92. Please list two or three specific programs, procedures, courses, activities, or experiences you had at Johnson that have proven LEAST helpful to you since leaving and explain why.

Respondent	Response
1	I honestly can't think of anything.
2	Math class, Wednesday Chapel
3	The Family class with Mrs Reece (even though it was fun and informative) and health or whatever you are calling it now. I took it instead of Bio. It was not great, but the professor was awesome.
6	Chapel--I understand why Johnson has it, and not sure what it's like now, but it was a chore. It was like we were playing church, but the church is a mission not just Christians in a room 3 times a week.
7	Marriage and Family course - poorly taught, was not applied to life or ministry General Epistles and Revelation course - fell short of expectations and did not prepare for ministry applications

Question: 92. Please list two or three specific programs, procedures, courses, activities, or experiences you had at Johnson that have proven LEAST helpful to you since leaving and explain why.

Respondent	Response
10	My Financing class was a complete waste of time since all we did was read a book in class and discuss it. I also did not find my multi-cultural studies class helpful.
11	Science and English have been the least helpful since leaving Johnson. I am not applying those particular teachings in everyday life since graduating.
13	The biology course with Steve Smith and Gospel Narratives with Gary Knapp...ineffective professors.
14	Library and chapel
15	I felt like I was encouraged to stay in the Johnson Bubble a lot more than I was encouraged to go out into the community.
18	1. Steve Smith's science classes. He was terrible...I'm sure he got horrendous student reviews every semester and kept teaching there for 20 years....that showed to every student that administration did not give, ultimately, a crap what students said about the courses...at least from our POV. 2. Brock's IBLT class (IBLT is a joke anyway...since you can't really learn anything meaningful about a language in such a short time), but he would openly scratch himself in a sensitive area in front of the class and it was awkward/gross/kind of funny in a weird way.
21	Any science classes. I learned nothing in the classes.
22	I am the Marketing Asst. at my church and I felt because my class was the guinea pig and first class of the Non-Profit program, we didn't really learn a lot about Marketing, since my teacher just wanted to show us how to publish a book. So that was a bummer. But I heard that professor only taught at Johnson for that year, so that's good to hear.
23	My inability to be honest about my identify as a sexual minority inhibited my ability to live authentically while in college. Although, one could argue that I knew what I was getting into when I enrolled at JU.
24	K-9,k-10,k-whatever. I really just needed the time to study and work. It seemed like there was always a lot of wasted time on those days between transportation, waiting around for instructions, and then only getting to serve for about 2 hours. It seemed silly.
26	Chapel, especially freshman chapel, became monotonous over four years. I hear this is something that has gotten a lot better though since I left.
27	Math class and science class, just thought it was a waste of time. But I'm sure it's just a requirement the college has to have.
28	Math and chapel
29	Hale's Basic Christian Belief All of my youth ministry classes
32	My science classes. I hoped that they would have a christian point of view and it was not. At all. Really the only class I dreaded.
33	Essential Mathematics Biological Science Why: I understand it is essential to learn in general; however, I have not been in need of using these specific studies.
34	My academic advising was not very helpful to me because the advisor I had for three years was not part of my program and was not familiar with the courses I needed to take.
35	Science class-not helpful at all The math class that was offered before quantitative literacy, can't remember the exact course name-it was literally my 8th grade Algebra class all over again. Music Appreciation-should not be required for non music students
36	math, english lit,

Question: 92. Please list two or three specific programs, procedures, courses, activities, or experiences you had at Johnson that have proven LEAST helpful to you since leaving and explain why.

Respondent	Response
37	Almost every Bible course outside of dr. Rodriguez, Steve cooks ot class Tommy Smith's restoration history was a waste of time. The academics just were not challenging. The course work did not dig deep and faculty presented a narrow view
38	Math and science classes were a joke and felt like a waste of time. I would like to see more support for male teacher ed students from a few select professors
43	Science and math.
44	When I was at Johnson, the chapel experience was not great. But from what I've seen it has improved tremendously in recent years. My math and science classes were honestly laughable
45	Biology
47	I did not understand senior capstone, It felt like a pointless class that was not useful and did not apply to anything that I needed to graduate.

Question: 93. Please include any additional comments:

Respondent	Response
1	Johnson has had a profound impact on my life. I will never forget the community that I was a part of during my time at JU.
3	Again, I'm probably biased because I love Johnson University.
13	Johnson is "home" to me. :) I continue thanking God for providing such a gift and for the relationships that were developed there.
17	I noticed major changes during my time at Johnson. I saw a lot of structural and rule changes. Some good and some bad. Some things I didn't like seeing change: the major dress code changes, I think wearing something nice aka not sweatpants to class was nice and respectful to the classroom and teacher. It isn't hard to wear jeans or other pants. Also I just want to remind you that you are a specialty school and loosening rules because it is too much trouble or there is a lot of pushback, remember they don't have to be there. There is something to be said for operating a school with students who actually agree to follow the rules. That's not saying they won't mess up etc, but changing rules to be more "inclusive" I feel is not right. I know that is unpopular when it comes to \$, but sometimes things are more important.
18	I've heard there has been a lot of turnover/new people on campus...even in the five years since I have graduated...it makes me not feel as connected to campus.
19	This survey is too long.
24	Johnson is a wonderful place to live, learn, and grow. I absolutely loved my time there and I felt so prepared for my career field after leaving there.
29	N/A
33	I had great four years at Johnson University and always have this place in mind. I would like to visit Johsnon someday.
34	At the time when I did my summer internship, all internships were structured the same as the preaching internships. The assignments did not fit well with my nonprofit internship, which made it more difficult to complete the requirements. I hope future internships are structured to fit each field. During my experience at JU I received very few scholarships. While there are many ministry focused and need based scholarships, there is very little scholarship money allocated for academic merit. I hope to see that change in the future to both reward academic excellence and attract good students to the school.
36	it could be beneficial to talk to those at healthy churches about what they are experiencing in ministry to better understand what students need to be equipped to do now instead of 10 plus years ago.

Question: 93. Please include any additional comments:

Respondent	Response
37	I have mixed feelings towards my ju. Experience. My major was great and the people in my life there were awesome but the lack of academic rigor was frustrating at times. Fyi my GPA was 3.5
48	I genuinely enjoyed my time at Johnson! I came as a missionary kid from Japan to Johnson, so Johnson became my family away from family.

Question: 94. Are there any questions you feel we should have asked but didn't?

Respondent	Response
3	Bang up job gang!
14	No
15	All of these questions were about our experience as students, but I know there has been a lot of turnover and changes. Maybe a couple questions for people still connected with Johnson to share what they think about what's going on right now.
18	Who are you and where is Dr. Pierce?
19	Don't add any more questions to this survey.
29	N/A
33	N/A
35	No
45	N/A

Question: 95. Are there any questions you feel we should not have asked?

Respondent	Response
3	See above...
14	No
15	If you don't already, I would suggest giving the option to skip some questions.
18	I'd probably design a survey specifically for the TN and FL campus respectively.
19	This survey felt a little repetitive.
29	N/A
33	N/A
35	No

Question	Response
23. Are you satisfied with what you gained from your major at Johnson University?	I got the life skills that I was desperately lacking. I don't remember a lot of what I learned, but the experience taught me things I needed to learn.
24. Do you feel that your professional area/major provided adequate skills?	Just barely, though. I switched to my major when I realized I would end up in an administrative/business setting anyway and my credits wouldn't transfer. I learned just enough to make it through my first position at work and, from there, I gained the experience I needed to move up in the company.
25. If you were to choose today, what professional area or major would you choose? Why?	If any, maybe something more PR. I think a lot of it has to do with how difficult the market is. And that I knew halfway through that I wouldn't end up in a field that Johnson trains for, but my credits wouldn't transfer. I appreciate the experience and I loved the faculty, staff, and students.
26. If you had it to do over again, would you attend Johnson University?	I really don't know. I really appreciated my experience, especially the faculty and staff. But the school does feel weird now with all of the changes that are happening. And I sometimes don't agree with the mindset that "the Johnson code" sets. I'm in a field only slightly related to my major making less money than some of my friends that didn't go to college. But I met my husband there and I found my job of the past two and a half years through the Johnson announcements, so it can't be too bad, right?
28. Do you currently volunteer service in a church or in a church-related organization?	altar guild at my anglican church
39. Please include any comments about these 8 questions:	From what I've heard lately, it seems like the school is significantly better at encouraging Christian service and significantly worse at being affordable.
82b. Please explain	I had very little experience with academia or being a grown-up before I went to college. I had several professors that mentored me in education and life. I still have a deep appreciation for several of them.
91. Please list two or three specific programs, procedures, courses, activities, or experiences you had at Johnson that have proven MOST helpful to you since leaving and explain why.	Sitting in professors' offices, discussing what life expects of us, what we encounter, and how we can best live into our calling. Working tiring hours on research projects that I was passionate about, researching and discussing topics with students, and then getting the incredible joy of a good grade. Making friends that helped grow me in the different phases of my life.
92. Please list two or three specific programs, procedures, courses, activities, or experiences you had at Johnson that have proven LEAST helpful to you since leaving and explain why.	I felt like I was encouraged to stay in the Johnson Bubble a lot more than I was encouraged to go out into the community.
94. Are there any questions you feel we should have asked but didn't?	All of these questions were about our experience as students, but I know there has been a lot of turnover and changes. Maybe a couple questions for people still connected with Johnson to share what they think about what's going on right now.
95. Are there any questions you feel we should not have asked?	If you don't already, I would suggest giving the option to skip some questions.

93. Please include any additional comments:	I noticed major changes during my time at Johnson. I saw a lot of structural and rule changes. Some good and some bad. Some things I didn't like seeing change: the major dress code changes, I think wearing something nice aka not sweatpants to class was nice and respectful to the classroom and teacher. It isn't hard to wear jeans or other pants. Also I just want to remind you that you are a specialty school and loosening rules because it is too much trouble or there is a lot of pushback, remember they don't have to be there. There is something to be said for operating a school with students who actually agree to follow the rules. That's not saying they won't mess up etc, but changing rules to be more "inclusive" I feel is not right. I know that is unpopular when it comes to \$, but sometimes things are more important.

92. Please list two or three specific programs, procedures, courses, activities, or experiences you had at Johnson that have proven LEAST helpful to you since leaving and explain why.	1. Steve Smith's science classes. He was terrible...I'm sure he got horrendous student reviews every semester and kept teaching there for 20 years....that showed to every student that administration did not give, ultimately, a crap what students said about the courses...at least from our POV. 2. Brock's IBLT class (IBLT is a joke anyway...since you can't really learn anything meaningful about a language in such a short time), but he would openly scratch himself in a sensitive area in front of the class and it was awkward/gross/kind of funny in a weird way.

Also, I "majored" (I think it was just a minor then though) in Media Communications and the background in that field has been helpful in my role of being a part of the Communications Department. I also took Homeletics at Johnson and have had the opportunity to do announcements, speak in our Membership Class, etc. and having that background has been helpful.

Respondent: 22

Question	Response
25. If you were to choose today, what professional area or major would you choose? Why?	Today, I would choose to do Nursing. Which is what I am currently working towards. 26. If you had it to do over again, would you attend Johnson University?	1000%. Being at Johnson was the one of the best experiences of my life. From the people I met, to the classes I took, to the experience of living away from home and in Tennessee. I wouldn't change that for anything.

I found my non-profit classes like the classes Alicia taught to be helpful in how I view non-profits. I am the Marketing Asst. at my church and I felt because my class was the guinea pig and first class of the Non-Profit program, we didn't really learn a lot about Marketing, since my teacher just wanted to show us how to publish a book. The Church leadership/conflict resolution skills have helped me navigate some conflicts that have risen during my time as a youth minister.

39. Please include any comments about these 8 questions:	I know that Johnson prides itself on being affordable, and compared to other private or state schools it is cheaper, but cheaper doesn't mean affordable. It is my personal opinion that all college prices are too high, and when you have 22 and 23 year old students graduating with various amounts of significant debt, then it creates a large burden that takes many years to recover from. Again, I know that Johnson is cheaper than many other schools, but during my time there tuition increased every year, and I was at school when the economy collapsed in 2008, and with increased tuition cost it was not affordable.
