**About the Center for Global Studies**

In meetings held in 2008, the presidents of Restoration Movement schools across the nation discussed the need for doctoral level education for leaders serving around the world. As an outcome of these meetings, conversations, prayer, and bull dog determination, the idea for the Center for Global Studies and the PhD concept were born. The CGS Advisory board consists of representatives from each affiliate school including: Cincinnati Christian University, Emmanuel Christian Seminary, Hope International University, Johnson University, Kentucky Christian University, Lincoln Christian University, Milligan College, and TCM International. Each participating university agreed to participate in the CGS board activities, propose faculty, share resources where appropriate, and support the efforts of the CGS and proposed PhD program. Johnson was chartered to develop an online PhD program in Leadership Studies that represented the mission and intent of the CGS. The PhD program while advised by the CGS board is a fully accredited program governed by Johnson University.

**PhD in Leadership Studies**

In June 2011, Johnson University was approved to provide an online PhD in Leadership Studies. This is a 60 credit hour interdisciplinary program designed for working adults primarily working in international contexts who are interested in exploring leadership using the lens of individual, organization, and society. Students who complete this program will:

- Articulate biblical, theological, philosophical, and ethical foundations for leadership.
- Exercise effective leadership in higher education and other organizations within their cultural contexts.
- Demonstrate Christian character in exercising leadership.
- Conduct high quality research and make original contributions to the field.

Coursework includes core courses, ethics (although ethics is integrated throughout), and research courses culminating in a dissertation. Students may select from one of the three elective tracks: Educational Leadership, Organizational Leadership, or Theology of Leadership. A unique aspect of this program is that each student will take three assessment instruments (cultural intelligence, leadership profile, and spiritual transformation) in the first course. Students are then required to maintain a reflection journal throughout the program with each course having reflection questions designed to foster reflection about the program, content, and assessment instrument results. As part of the dissertation completion, each student will be required to write a reflective paper describing their personal philosophy of leadership gleaned from lessons learned throughout the program. Content mastery, application to a ministry context, and personal growth and development are integral parts of this program.
Doctoral Student Journey

Phase 1: Pre-Candidacy

Orientation – Covers critical topics including history, policies and procedures, information technology, library services, writing center and support, student success and the Doctoral Learning Community.

Required coursework – core courses, required ethics courses, and principles of research.

Other highlights – baseline individual assessments - CQ (Cultural Intelligence Assessment), LPI (Leadership Practices Inventory), and STI (Spiritual Transformation Inventory) along with Reflection Journal, CITI Human Participants Research Certificate.

Phase 2: Candidacy

Application to begin candidacy; completion of candidacy paper; faculty review; candidacy defense;

Milestone 1: Successful Granting of Candidacy Status

Phase 3: Proposal

Two research courses; elective credits; dissertation planning; proposal seminar; Dissertation Proposal; Institutional Review Board Review.

Milestone 2: Successful Defense of the Proposal Before the Dissertation Committee

Phase 4: Dissertation

Completion of the data collection, analysis, and dissertation preparation; Dissertation preparation; review, and Presentation, Sign off Ceremony. Re-take individual assessments - CQ, LPI, STI. Preparation of final reflection paper.

Milestone 3: Successful Signing of the Dissertation by the Dissertation Committee

### Course Descriptions and Course Learning Objectives

#### CFGS 6220 Intercultural Behavior, Worldview, and Communication (3)

Students explore socio-cultural and critical perspectives on identity, language, and how they intersect in diverse cultural communities. Topics include the philosophical and theological dimensions of worldview and how one’s worldview translates into behavior, intercultural communication with a focus on what happens when people from different cultures interact, and interactions within organizational contexts. Students define cultural intelligence and explore existing literature on leadership competencies related to intercultural leadership.

- Develop a biblical perspective on the necessity for a cross-cultural emphasis.
- Define and discuss major theories related to intercultural and cross-cultural interaction and communication.
- Identify factors that can influence the cross-cultural communication process.
- Critically consider the role of and challenges associated with worldview in cross-cultural interaction and communication.
- Reflect upon one’s own culture, cultural intelligence, and personal leadership behaviors within an inter-cultural setting.
- Research one’s own culture and contrast that culture with another, identifying specific biblical, cultural, and strategic actions one can take to interact and work together effectively.

#### CFGS 6222 Global Leadership, Systems, and Policy (3)

Students develop a solid understanding of the concepts linking leadership to global and social systems, giving special attention to the role of policy analysis as a critical connection between leadership and systems. They apply philosophical and theological perspectives to issues raised in the course.

- Articulate and apply biblical perspectives to social responsibility, social justice, and leadership.
- Identify and differentiate between several approaches to systems thinking and identify the key points in the critique of systems thinking.
- Identify and critique policy and political decision-making process within in a specific context.
- Explain the meaning of social responsibility and social justice.
- Connect the ideas of sustainability, social justice, and social responsibility to intercultural, multi-worldview contexts.
- Discuss the relationship of a systems approach to critical issues, such as globalization and world poverty, gender issues, education, food supply or health care.
- Reflect upon how one’s worldview impacts your conceptions of sustainability, social justice, social responsibility, leadership, and decision making.
- Research a critical issue within your context, identify the issues, and formulate strategies for change or improvement.
